

## **Intrinsic Continues to Strengthen the Bridge Between Asia and North America!**

We are thrilled to announce a significant milestone in our journey of fostering global innovation and entrepreneurship: the **grand opening of Intrinsic Innovations Japan** in the vibrant city of Kobe, in partnership with CLIK.

Just three months following our expansion into Singapore and Malaysia, we are proud to mark our presence in Japan, a country renowned for its rich history of innovation and resilience. Kobe, Japan's first open port, mirrors our foundational values at Intrinsic Innovations - openness, resilience, and a relentless pursuit of innovation. Our decision to establish our new office in Kobe is a testament to our commitment to building bridges between continents, cultures, and communities.

Our partnership with CLIK and the unwavering support from the City of Kobe have been instrumental in bringing this vision to life. Kobe's dedication to creating an environment that nurtures innovation has made it the perfect location for us to set our roots in Japan. Together, we aim to create a platform that enables startups to transcend cultural and market barriers, fostering a blend of innovation and tradition that is rare and invaluable.

The opening of our Kobe office is more than just the launch of a new location; it is the inauguration of a new era of collaborative innovation and cross-cultural entrepreneurship. We are excited to intertwine the entrepreneurial spirits of Calgary and Kobe, Canada and Japan, creating a tapestry of opportunities that promises to enrich not only our communities but also the global landscape of innovation.

We extend our gratitude to everyone who has supported us on this journey. Here's to opening new doors, creating new paths, and achieving new milestones together.

Thank you for welcoming us to Kobe. Here's to a future where innovation knows no boundaries!

We are very excited that Kobe Shinbun's newspaper released an article, please check out the link below.
