

Intrinsic Innovations opens an Intrinsic Innovations Vietnam office

Calgary, December 2022 - Intrinsic Innovations is pleased to announce the establishment of the Intrinsic Innovations Vietnam (Intrinsic Vietnam) office. Intrinsic Vietnam was founded in collaboration with Tuan Le, who has been named CEO of Intrinsic Innovations Vietnam. The new Intrinsic Vietnam office is in Ho Chi Minh City, the country's largest economic and cultural centre.

Vietnam is a country that Canadian companies have identified as a strategic new market to enter, and Canada has the potential to attract the Vietnamese business community as an investment destination. Intrinsic Vietnam will provide professional consulting services as well as facilitate investment and settlement in Canada.

Intrinsic Vietnam will use the Intrinsic Innovations network to connect South-East Asian entrepreneurs with key industries, communities, and Canadian government organizations in order to help them expand their business investment activity in Canada.

Intrinsic Innovations works with its partners to realize the transformative value of a trusted global network. We enable Canada to maximize global diversification in the innovation space and we help international innovation-focused companies expand and/or relocate to Canada.
